Paragon Casino Resort- From Rendering to Reality!

“Cherishing our past, building for our future” is the motto for the Tunica Biloxi Tribe in Marksville’s LA. Our Team in June completed a remarkable project in the tribe’s expansion of their **Paragon Resort Casino**. It involved the recreation of a Cajun swamp, complete with seven 45 ft. Bald Swamp Cypress trees in a ten story atrium complete with water feature. This attraction had live **alligators** added while we were putting the finishing touches on native grasses (artificial also) in the water. We all took great pride in creating an atrium planting true to the tribe’s heritage with deep local roots.

Interiorscape Conference & Trade Show

Show girl and part-time
employee Cari Byers

Excited again for **Calscape** to return to Las Vegas, Plantworks hometown, September 26-28 at the **Riviera Hotel**. **Vegas Fact:** In 1955 The **Riviera** was the first high-rise hotel on the Strip built by a group of Miami “Investors”. All casinos at that time were one-story road style motels, The **Riviera** at five stories, started the climb to the sky. Now the Skyline of the Strip equals most cities in the world. The **Stratosphere** stands at 1149 ft. one of the tallest structures in the US, The **Wynn Resorts** stands 45 stories at 614 ft., and recently complete **Trump International Towers** is 620 ft. tall.

Remarkably ground is being broke soon for The **Crown Las Vegas**, project was formerly called Las Vegas Tower, and it will have 142 floors and top off at 1,888 ft. making it one of the tallest in the world. Far cry from 1955 when every thing was one story. See you at the trade show Plantworks has a double booth, be sure to” look us up”.

Presenting something NEW!

New for your next **Interior Design Cuisine** how about Artificial Bamboo in five delicious flavors, **Golden Wheat, Chili Powder Red, Black Licorice, Fresh Basil, and Chocolate.**

Each plant is handcrafted in Las Vegas by our skilled tree builders on real bamboo cane harvested from California.

The foliage is finest commercial grade available individually shaped for the most “**Living Plant**” look. This line has been received with much enthusiasm by our high design clients. We are able to manufacture bamboo for any size planter and any height up to 30 feet. See it at CalScape in September or visit our facility minutes from the strip.

Happy Anniversary to us!

Plantworks celebrated 30 years in the interiorscape business in 2007. From our 20,000 sq. ft. design center we design, manufacture, provide and install custom artificial plants and florals, and landscapes- **From one tree to an entire atrium we want to work with you!!**
